Facilities/Maintenance

- Need to lock the maintenance room off the men's bathroom
- Arena Mats - estimated less than $15,000 for the mats. Mat pricing was for the warm up room, kitchen, main arena areas, in front of bleachers, and locker rooms. Potential of Clarkson University Athletics to donate used mats that they did not like. C-F Youth Hockey could potentially donate funds toward the mats if used mats not donated by Clarkson.
- Facilities position - Alex Hubbard may be interested in the position. Need applications submitted by November 27, 2026.
- The tractor starter still may need to be fixed, check with Logan Lutz. If not already repaired, contact Towns mechanics for repair.
- Part of the ice surfacing machine needs to be fixed. Ryan to work with Wayne Dunn to complete the repair of chains and sprockets.
- Arena insulation - the feasibility study came back with $1.3 million, the Towns requested spray foam and that quote came back at $1.9 million.
- Community member request to have doors installed in women's bathroom stalls instead of current curtains. The committee discussed and agreed to have this completed. Matt Peabody has agreed to do this for the arena, he can purchase supplies at Todd's Supply. This will be completed by the beginning of the skating season.
- Broken toilet in women's bathroom. Melissa Streeter to contact Dean Kerr to check both bathrooms to make sure all is in working order prior to the skating season.
- Safety Survey - work in progress per Town Representatives. The committee has found the heater in the warm up room has been replaced.

Next Meeting - Monday, December 7th, 2026 @ 6:00 p.m.
These minutes are in draft form until approval at next month's meeting.
